

# HERE'S the POINT!

By SPENCE HELD

(Editor's Note—Spence Held is on vacation in the Idyllwild mountains. His column this week is being written by a Peninsula News staff member.)

This Girl Friday attended the press preview of Michael Todd's "Around the World in 80 Days" at the Capri Theatre.

My notes and impressions include glowing comments about Victor Young's musical score, the fluid poetry in motion by Cantinflas, vivid panoramic photography, and a truly great ability by the writers to capture that illusive British brand of humor.

The over-all grandeur of the picture, and the sheer extravagance that surrounded its filming, overshadows occasional slow sequences and the often heavy handed "Todd touch."

For those of us who may never get around the world, the picture is an authentic substitute; and for those who do get around the world, it will call up memories, or remind you to further explore those far-away places.

Reports from the Capri state that advance sales on tickets exceed any other West Coast theatre.

Notes from a Girl Friday: The printers think I've written enough stuff for the New York Times Sunday edition . . . my nose for news didn't bring any information on the rumored local shooting . . . but I did get a bit on Mission Bay bond funds . . . and activity around the Nimitz freeway . . . next time you're at Voltaire and Chatsworth, say a few words of thanks to the City Fathers for installing a safer stoplight system near a busy school . . . local youth activity includes a bean-shooting craze . . . streets are covered with small beans, and several stores have found them in the morning sweepings . . . summer doldrums will soon be replaced by fall back-to-school activity.

## Back To School Issue Next Week

Watch for next week's edition of the Peninsula News, which will include a special tabloid supplement.

This supplement will feature back-to-school values in local stores, as well as back-to-school features and ideas.

## New Law On Boat Registration

Under a recently enacted state law, all boats in this state must be registered with the County Assessor, and an identifying number assigned. This number must be permanently affixed to the bow of the vessel; the figures and letters must not be less than three inches high, and they must be distinctly visible and legible.

Vessels presently registered with the Coast Guard or Custom House will not be assigned different numbers. The number assigned by either of these agencies will be the same for purposes of county registration.

All vessels not requiring registration with either of these

two agencies—including all outboard vessels, sailboats, rowboats, houseboats, barges, dredges, etc., must, however, be assigned an identifying number by the county assessor.

This legislation was designed to provide a program of registration which has many advantages to the boat owner: safety, in the event of loss or theft, and for proof of ownership.

Owners of boats which have not been assigned an identifying number by the Assessor are urged to contact the Marine Division of the Assessor's office immediately to register their vessels and obtain the necessary registration number.

**SPEEDSTERS**—Charlene Penacho, left, and Patsy Turner, Point Loma High School seniors, practice for the 15th National Water Ski Tournament to be held Aug. 23-25 at the Naval Training Center Estuary. ## Boat Show & Marathon Race Set Saturday and Sunday

The biggest outboard marathon in San Diego history will get underway Sunday at Shelter Island when 125 runabouts start a 60 mile grind in San Diego Bay.

The event will be the fourth annual Outboard Marathon and Boat Show, sponsored by the Outboard Boating Club of San Diego, and is part of the Harbor Days celebration, Aug. 24 and 25.

Preceding the race Saturday will be a boat show in the launching ramp parking area,

featuring an estimated 50 late model outboard runabouts and 100 exhibits of new boating and water skiing equipment. Entertainment will feature Los Barqueros outboard drill team.

First starting gun for the marathon will be at 8:05 a.m. Sunday. Entertainment following the race will include a concert by Bonham Brothers Boys Band at 12:15 p.m.

General chairman of the celebration is William J. Orton, of 4230 Albatross St. Queen of the event is Joanne Baldwin.

## New Qualifying Weight Required In Yellow Derby

Most astonishing season in San Diego sportfishing history continued to unfold with more startling developments this week, but the rise of minimum qualifying weight in the third period of the \$25,000 Yellowtail Derby to 29 pounds continued to hold the spotlight.

The 29 pound level is the highest peak ever attained in a period of the derby and approximately one-half of the final period still remains.

Large albacore were almost completely responsible for the steady climb in the derby minimum, but increasing catches of dolphin and the first yellowfin tuna taken on rod and reel in local waters in more than 10 years were other highlights of the week's action.

Largest yellowfin actually taken was a 28 pound 4 ounce pedoes and depth charges will be fired in the vicinity of San Clemente Island on Friday, August 23, from 8 a.m. to 4 p.m.

The danger area is roughly an area 4 miles north and south by 2 miles east and west on the North side of San Clemente Island.

Fishermen and yachtsmen are warned to avoid the area during this period.

## Parade of Lights Set Saturday

A colorful night-time water parade will be one of the top attractions at the 8th Annual Harbor Days Celebration. The event, sponsored by the San Diego Junior Chamber of Commerce, will be held Saturday night, Aug. 24.

"The Parade of Lights" a regular feature of the annual celebration, is expected to attract over 40 entries this year. Last year the parade hosted over 30 boats in the evening water parade, David Sellgren, project chairman, stated.

The Parade will begin at 8 p.m. when private yachts and sail boats, commercial and military ships, all gaily decorated with lights, will leave the south end of Shelter Island. The nautical procession will proceed along the shore line of Harbor Drive to a point off the Civic Center and return along the same route to Shelter Island.

Best vantage points for spectators will be on Harbor Drive just west of the San Diego Speedboat Club, as the parade will pass within 100 feet of the shore line about 8:30 p.m.

Awards will be given in each of four divisions: (1) private entries up to 26 feet; (2) private entries over 26 feet; (3) commercial craft; (4) all other.

At 9:30 p.m. a spectacular fireworks demonstration will take place in front of the San Diego Speedboat Club as a finale to the Parade of Lights demonstration.

Information from the traffic engineering division of the City Engineer's office states that the signal will be the "actuated" type which operates according to the flow of traffic. The system also includes a push-button device for pedestrian use.

### Highway Patrol Offers Advice Slow Drivers

SACRAMENTO—Slow drivers fail to keep right on multi-lane highways are traffic law violators, says the California Highway Patrol.

Section 525.1 of the California Vehicle Code requires a driver who is driving slower than the normal speed of traffic in the right-hand lane or near the right edge of curb or practical, declared Patrol Commissioner B. R. Caldwell.

There would be less congestion and accidents on our freeways if drivers would heed this

advice. Frequently cars pile up because the driver who is loafing in the left or passing lane in the left or passing lane is up on accident potential for a driver who endeavors to pass with the normal flow of traffic," Caldwell stated. "Frequently, the slow driver who is up the hazardous situation of involved in the accident, is he aware of the consequences of his act."

To eliminate this condition motorists must stay in the right lane except when preparing to turn left or while overtaking and passing another vehicle," he concluded. "It is well kept in mind the slow driver persists in driving in the left lane is subject to a traffic violation."

### 'MIND' SUNDAY SERMON TOPIC

God revealed as all-knowing "Mind" is stressed as the theme of the Lesson-Sermon in all Christian Science churches Sunday. The Golden Text from Romans (11:33) declares: "O the depth of the riches both of the wisdom and knowledge of God! how unsearchable are his judgments, and his ways past finding out!"

David sings in a passage from Psalms (145:1, 9, 13), "I will extol thee, my God, O king; and I will bless thy name for ever and ever... The Lord is good to all: and his tender mercies are over all his works... Thy kingdom is an everlasting kingdom, and thy dominion endureth throughout all generations."

"The divine understanding reigns, is all, and there is no other consciousness." This illuminating statement is from "Science and Health with Key to the Scriptures" by Mary Baker Eddy. Again she says, "When we fully understand our relation to the Divine, we can have no other Mind but His,—no other Love, wisdom, or Truth, no other sense of Life, and no consciousness of the existence of matter or error" (pp. 536, 205).

### 'Androcles' Set At Playhouse

La Jolla Playhouse will end one of the most successful seasons in its history with a roar of laughter when it presents George Bernard Shaw's rip-roaring farce "Androcles and the Lion" with a cast of popular comedians in the persons of Leon Ames, Marilyn Erskine, Willard Waterman, Mike Mazurki, Preston Hanson, Nora O'Mahony, William Newell and Jack Mosher on stage to execute the antics.

Producer John Swope and director Michael O'Herlihy are confident that with this cast they can produce more gaiety, punctuated with good old-fashioned belly laughs, than even GBS had hoped for when he wrote the comedy.

TV viewers who have watched Leon Ames as father in "Life With Father" and Willard Waterman as "The Great Gildersleeve" will know that in these two there is great potential for laughter.

As a short curtain-raiser the Playhouse will present the hilarious one act play "The Proposal" with Ames, Miss Erskine, and Waterman carrying the three roles.

These two productions constitute the final presentation of the eleventh season at La Jolla Playhouse and began their two week run Tuesday, August 20th.

## WHAT'S DOING

J. L. Webb, your Telephone Manager in San Diego

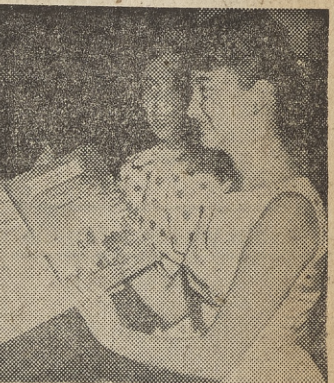

When you're out for a drive in the country, you may notice a little "telephone gardening" underway. Especially where there are tall trees and shrubs. These growths could interfere with telephone lines if we didn't cut them down to size once in a while. When the brush gets extra thick, new chemical sprays (above) can be used. They do a mighty good job, too. And some day, I wouldn't be surprised to see a lot of spraying done from helicopters. It's already been tried out. No matter what it takes, the main thing is to keep those voice paths open for your calls.

That's a piece of telephone equipment in the hand of the man at left. It's called a thermistor. And the "heart" of it is just a tiny speck inside that tube. It's so small you could barely see it if you placed it on your fingertip. It does a big job, though. For with the thermistor, your voice can't fade or blare on the phone. Just goes to show that good things do come in small packages.

ARE YOU GOING ON VACATION? It is always a good idea to take along a list of addresses and phone numbers of the friends you are expecting to visit back home. Our Public Office has over 400 out-of-town directories for you to use in looking up these friends. You are welcome to stop by any time to use these directories and while you are in why don't you pick up some of our informational pamphlets about your telephone.

**AUTO PRODUCTION** through June, was 3,951,149 United States automobile production in June totaled 500,669 and 2,262 coaches. At this time units, bringing output for the last year, 3,793,865 motor vehicles had been produced, in the National Automobile Club. Cumulative output of all cars, 597,195 trucks, and 2,287 types of vehicles for the year, coaches.

**MAJOR DISASTERS** CHICAGO — The sinking of the Titanic, the Chicago fire and the San Francisco earthquake were headline-getters of yesteryear — and they won't soon be forgotten. But the combined death toll from those and 49 other major disasters since 1865 is only 28,094 — far short of the 40,000 persons killed in motor vehicle accidents in 1956, according to "Accident Facts," statistical yearbook of the National Safety Council, just off the press.
